

Are proud to award this certificate
to International Gas Detectors

Duties and responsibilities

This Company take their responsibilities toward Health & Safety and Risk Management very seriously. The business aims to manage operational safety to the highest standards to protect all parties. They will do everything reasonably practicable to manage and satisfy their statutory obligations and act responsibly within their legal requirements. As a part of meeting this goal, the Company ensures all employees and visitors to the site are reminded of their own obligations towards health and safety.

Full details of the safety management programme are available as appropriate.

The business is working in partnership with a Safety2Business programme using retained OSHCR registered consultants.
